M Ackley Descr Courthouse, Governmental Office[s]
General Services Administration (GSA) has a need for
a contractor to provide all management, supervi-
sion, labor, materials, supplies and equipment, and
shall plan, schedule, coordinate and assure effective
performance of all work for the Phase II renovation
of the main lobby at the U.S. Federal Building and
Courthouse in Duluth, MN. The lobby renovation
project represents Phase II of the main lobby's his-
toric restoration to the original 1930's era. The scope
of work includes, but is not limited to, the renova-
tion of approximately 1,350 sq. ft. of lobby area to
accommodate a new coffee shop area serving ten-
ants and the public. The coffee shop design will
incorporate historic design features and finishes
consistent with Phase I. The remaining project scope
replaces the existing deteriorated bronze exterior
entrance doors with new doors replicating the origi-
nal design, as well as restoration of three (3) arched
windows along the lobby's west wall at the south end.
