*A kitchen for
canning, jams,
pickles, and
more!*

Do you want to make jams, jellies, pies and other yummy things? Come and use our kitchen!

If you want to sell your creations, we provide a kitchen that meets the MN Department of Agriculture requirements as a “licensable kitchen”, with NFS equipment, the correct types of sinks, a hood system with an ANSUL fire suppression system, etc. so that the food preparer can be licensed by the MN Department of Agriculture to process food for retail sales. The kitchen itself is not licensed.

We are renting out time in the kitchen at a rate of \$15/hour through the end of 2010. The fee is due on the date of use.

Please contact me to arrange time for your culinary adventure, or if you have any questions!
